

Industria Ambrosiana Filati Spa

Da oltre 100 anni nella produzione e commercializzazione di filati pregiati, IAFIL propone i cotone a marchio registrato.

For more than 100 years of production, marketing and commercialization of premium yarns, IAFIL proposes cottons with a registered trademark.

Il **PERUVIAN PIMA COTTON** è il leggendario 'cotone degli dei', di altissimo pregio e dalla morbidezza ineguagliabile. Ancora oggi viene coltivato e raccolto a mano nelle rarefatte atmosfere degli altopiani peruviani, secondo i metodi tradizionali, al fine di preservarne le qualità originali: una fibra particolarmente lunga e fine che dona a questo filato lucentezza e sofficià ineguagliabili.

The PERUVIAN PIMA COTTON IS the legendary 'cotton of the gods', extremely valuable and supremely soft. It is still cultivated and handpicked in the rarefied air of the Peruvian highlands, using traditional methods to preserve its original qualities: a particularly long and fine fibre that gives this yarn unrivalled shine and softness.

Il **SEA ISLAND COTTON** ha una fibra lunghissima, coltivata esclusivamente nelle isole caraibiche delle British West Indies, lì dove le condizioni climatiche sono ideali per la sua crescita. Una fibra unica, nata da un seme comunemente noto con il nome di Black Seed e dalla produzione limitata. Il Sea Island Cotton è garantito da certificato originale, emesso dall'associazione WISICA International (West Indian Sea Island Cotton Association International).

The SEA ISLAND COTTON has a very long fibre cultivated exclusively on the islands of the British West Indies, where the climatic conditions are ideal for growing this kind of cotton. This unique fibre comes from a seed commonly known as 'Black Seed' and is produced in limited amounts. Sea Island Cotton quality is guaranteed by an original certificate issued by WISICA, the West Indian Sea Island Cotton Association.

SUPIMA è il cotone USA a fibra lunga, coltivato nella zona occidentale e sud-occidentale degli Stati Uniti. La sua caratteristica più significativa è la straordinaria purezza ed uniformità della fibra. Iafil aderisce alla Supima Organization.

SUPIMA is a long-fibre American cotton, cultivated in the Western and Southwestern United States. Its extraordinarily pure and uniform fibre is its most significant characteristic. Iafil is a member of the Supima Organization.

GIZA 45 e **GIZA 87** sono i fuoriclasse fra i COTONI EGIZIANI, coltivati solo in una piccola zona ad est del delta del Nilo: cotone lucidi, resistenti e con fibre di straordinaria lunghezza, ad elevatissimo indice di uniformità e con un micronaggio finissimo.

GIZA 45 and GIZA 87 are the best of all EGYPTIAN COTTONS, cultivated only in a small area east of the Nile delta: they are strong, shiny cottons with extraordinarily long fibres, a high degree of uniformity and extreme fineness.

MASTERS OF LINEN® è un marchio registrato e segno di eccellenza per il lino dal campo al filato al tessuto. È un punto di riferimento sia per il settore tessile che per il consumatore. Masters of Linen significa: made in Europe, dal campo al filato al tessuto - responsabilità sociale d'impresa - know-how e posti di lavoro europei - prossimità, identità territoriale sia agricola che tessile - minimo impatto ambientale nelle fasi di produzione - servizio - eccellenza e innovazione.

MASTERS OF LINEN® is a registered mark and sign of excellence for linen 100% Made in Europe, from field to yarn to fabric. A benchmark for both the trade and the consumer. Masters of Linen means: made in Europe, from field to yarn to fabric - corporate social responsibility - european know-how and jobs - proximity, local, agricultural and textile land identity - low carbon footprint - service - excellence and innovation.

IAFIL crede nella sostenibilità e nella responsabilità d'impresa: per questo propone filati corredati da importanti certificazioni volontarie, che rispondono a protocolli molto severi in ambito ambientale, produttivo e sociale.

IAFIL believes in sustainability and corporate responsibility: for this it proposes yarns with important voluntary certification, which respond to very stringent environmental, productive and social protocols.

Lo **STANDARD 100 by OEKO-TEX®** è un sistema di controllo e certificazione indipendente e uniforme a livello internazionale per le materie prime, i semilavorati e i prodotti finiti del settore tessile ad ogni livello di lavorazione. Le approfondite verifiche dei prodotti e gli audit aziendali periodici consentono di sensibilizzare l'industria all'utilizzo responsabile delle sostanze chimiche, nel lungo termine e su scala mondiale.

The STANDARD 100 by OEKO-TEX® is a worldwide consistent, independent testing and certification system for raw, semi-finished and finished textile products at all processing levels. Test criteria and limit values in many cases go far beyond applicable national and international standards. Extensive product checks and regular company audits also ensure that the industry has a globally sustainable awareness of the responsible use of chemicals.

Il **GLOBAL TEXTILE ORGANIC STANDARD (GOTS)** è riconosciuto come lo standard principale al mondo per la lavorazione dei tessuti realizzati con fibre organiche. Stabilisce protocolli ambientali e sociali restrittivi che si applicano a tutte le fasi della produzione.

The GLOBAL TEXTILE ORGANIC STANDARD (GOTS) is recognised as the world's leading processing standard for textiles made from organic fibres. It defines high-level environmental criteria along the entire organic textiles supply chain and requires compliance with social criteria as well.

Il protocollo **BETTER COTTON** è un approccio alla produzione sostenibile del cotone dal punto di vista ambientale, sociale ed economico. Ciascuno degli elementi in gioco - dai principi di produzione ai criteri di monitoraggio che misurano risultati e impatto di ogni azione - entra in scena per supportare l'iniziativa Better Cotton e la credibilità di BCI, l'organizzazione senza fini di lucro che la promuove.

The BETTER COTTON Standard System is an approach to sustainable cotton production from the environmental, social and economic point of view. Each of the elements - from the Production Principles and Criteria to the monitoring mechanisms which show Results and Impact - work together to support the Better Cotton Standard System, and the credibility of Better Cotton and BCI, the not-for-profit organization which promotes it.

Industria Ambrosiana Filati Spa

IAFIL STOCK SERVICE 120 colori uniti e 48 mélange per cotone irrinunciabili, versatili ed eclettici, che si prestano a soluzioni moda sia al maschile che al femminile.

Cotoni crêpe e lineari, per una ineguagliabile sensazione di freschezza. Cotoni 100% Pure, "no pilling and relaxation free" anche se sottoposti a cento cicli di lavaggio ad acqua o a secco.

Cotone e cashmere, cotone e lana, seta, filati man made per andare oltre il cotone garantendo la fornitura anche per lotti piccoli o piccolissimi.

IAFIL STOCK SERVICE

120 colours solid and 48 colours mélange

for the most up-to-date interpretation of the cotton yarns. Versatile and eclectic, suitable for most fashionable solutions for him and her. Cotton crêpe and clean that guarantees evenness and high resistance, as well as an unbeatable fresh feeling. 100% Pure, "no pilling and relaxation free", even after more than a 100% washes. Industria Ambrosiana Filati Spa

ASSOLUTO BY IAFIL Filati preziosi, i cotone più belli del mondo: *Sea Island, Suvini, Giza 45, Peruvian Pima Cotton.*

Filati che abbinano creatività e innovazione di struttura in un nuovo equilibrio tra moda e modernità di trattamento.

Filati naturalmente brillanti, riflessioni e rifrazioni di luce, una mano ricca per filati preziosi.

Soluzioni performanti che partono dalle materie prima naturali e le potenziano, in filati sottili e sottilissimi che evolvono la tradizione delle grandi fibre naturali.

ASSOLUTO BY IAFIL

Precious yarns, the most beautiful cottons in the world:

Sea Island, Suvini, Giza 45, Peruvian Pima Cotton.

Yarns that bring a new balance between fashion and brand new yarn construction. Natural shiny yarns with light reflections, a rich hand-feel for precious yarns. Solutions for performing yarns, fine yarns able to enhance the best natural fibres.

VISION BY IAFIL

Materiali pregiati e prodotti ben fatti, di quell'apparente semplicità che cela un gran lavoro di sperimentazione e di creatività. La modernità delle proposte è espressa dalle mani, dal peso e dalle performances ottenute grazie all'alta tecnologia di filatura e di costruzione, abbinata dall'attento controllo di produzione.

VISION BY IAFIL

Well made and Luxurious Yarns that appear to be simple, but are in fact produced with refined creativity and severe testing. Modern proposals: thanks to our high spinning technology and the great quality control, we obtain perfect fineness and precious hand feel.
